NOVELTIES SEPTEMBER
Supplementary catalogue 2019

10 years of "Skyline" –
the original since 2009!

All information about "Skyline" can be found in the main catalog on page 14

"Skyline" – the original was designed by ZIEHER in 2009. For the past ten years this buffet system allows a maximum of flexibility and timeless elegance for exclusive buffet presentations.

Emerged by the spectacular optics, which reminds vague to the silhouette of skyscrapers, "Skyline" in addition offers an extensive functionality up to the optionally available and fully integrable illumination. So this unique buffet system leaves nothing to be desired. A big advantage of this series is the time saving in preparation of a buffet achieved by the flexible, uncomplicated and simple installation.

„Flower-Tree“ - a tree to dream of!

On 13 resp. 25 levels, these trees offer the possibility to present and showcase finger food, Petit Fours and other delicacies. Also a selection of jam in handy jars can be presented in an appealing way as well as fresh apples which, placed on the leaves, invite to take one. These masterpieces of craftsmanship also accentuate the beauty of each lobby by its decorative character.

The shape of the leaves is based on the already existing plateau plates and "Flower-Tower" etageres (Main catalogue page 86-89). Especially on the buffet this opens up the option to arrange the buffet installations diversified but nevertheless harmoniously and variable.

The trees are completely made of stainless steel and are carefully polished to a high finish. The 8 mm thick foot creates a perfect base and guarantees a firm stand.

"Medusa" - risen from the deep-sea

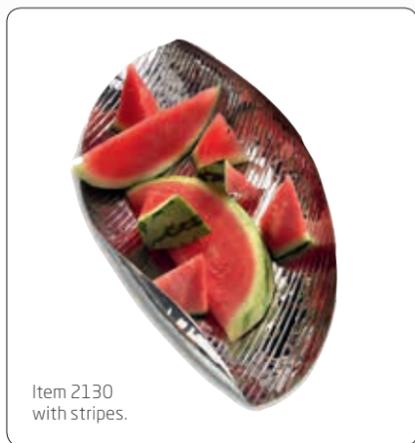

These organically shaped bowls appear like creatures of the sea which float silently through the depth of the ocean. Even if the tentacles, modeled in numerous process steps, appear very filigree but form nevertheless form a safe base. Despite the solid stainless steel, these hammered bowls award a natural airiness and an almost floating impression.

"Medusa" offers the perfect frame for all sorts of seafood or extravagantly presented salads and desserts. Even as a decorative storage space the bowls cut a good figure.

"Pulsar" New

Design: Grace Liu, Jian Ping Li

Set impulses!

The "Pulsar" series is predestinated for starters, intermediate courses or desserts.

The surface of the matt-black or white glazed plates made of porcelain (main catalog page 140) is reminiscent of the playful waves created on a smooth lake after a stone's throw. This popular series is now extended by another optically attractive but also functional plate.

This new version made of grey glass clearly offers more space for the staging of dishes by a reduction of the waves. A stylish extension for a plus in creativity!

NEW "Star"-mini

Uniqueness in practice

Many decanters provide a fast but completely unbalanced development of wines, as they develop only by a macro-oxidation on the surface. It's more balanced and harmonic to implement the necessary oxygen in a very soft and gentle way.

The filigree rays of the centric star animate the served wine to a very soft enhancement. During the slewing the oxygen is mildly folded in and integrated into the wine. Thus the wine starts to develop on its own terms and not – as with other decanters – just on the surface.

The swirling of the wine is fascinating to look at and helps to harmonize the acid and to synchronize different levels of aroma though a three-dimensional development.

By using borosilicate glass as raw material for this decanter, which stands out by its extremely smooth surface, another highly pleasant effect was created: the aromatic molecules are not expelled from the wine but allow to present themselves completely within the wine glass. The aerated wine becomes extremely balanced, carefully crafted and centered. An additional value which is simply priceless!"

Silvio Nitzsche, WEIN|KULTUR|BAR Dresden

Please note:
The ideal charge to provide a maximum of oxygen is 0.375 ltr.

The wine glass series VISION is available as of page 194 in the main catalogue.

The small "Star"-mini is particularly suitable for the decantation of open wines or small bottles. The ideal charge to provide a maximum of oxygen is 0.375 ltr. The reduced size allows to decant white wines and still to temper them in wine coolers. Also for dessert wines, the staging of innovative high-end cocktails, flavoured spirits, to the point of exotic juices – this unique product is the perfect solution.

"Star" **NEW**

The art of decanting

The decanter "Star" synergizes the aesthetics of a unique copy with the functionality of a professional tool for vinophile pleasure. The individual star raises each carafe to an exceptional piece. This artfully created centerpiece becomes a unique element in an excessively complex multi-stage process. This is pure luxury in our uniform world because not a single "Star" is of the same kind.

The wine glass series VISION is available as of page 194 in the main catalogue.

The big "Star" has a recessed grip at the bottom which improves the swirl during filling and slewing. On the other hand it guarantees a safe handling and firm stand while serving the wine. A black silicone collar enclosed in the present box offers an attractive base and allows inclined positioning of the decanter.

Spot on!

This new version of the basic ring for the "Eddy" (item 4883) and "Star" (item 4947) decanters offers the chance to put served wine into the spotlight.

The rechargeable Zieher LED-light (item 8150) fits exactly into the cavity at the bottom part of the ring and thus can put the served wine inside the decanter into the limelight. In the beginning the illumination effect in the filled decanter can be very unobtrusive when serving strongly pigmented red wine. But at a decreasing level the play of light and colours becomes more and more intense in an exciting way. These accessories are also suitable to illuminate glass bowls and –platters. In combination with the ring, the LED-light and remote control still maintain their known options, such as adjustable brightness, 7 different colours and various colour changing functions. Detailed information about the Zieher rechargeable LED-light can be found on page 41 of the main catalogue. All components (ring, light, remote control and charger) are available either as single parts or as a set in a gift box.

Attention please!

The chargers in the gift box are equipped with a EU plug, chargers with US resp. UK plugs are available upon request.
